## 1 Introduction and purpose

The Data Protection Act 2018 (the Act) gives individuals rights of access to their personal records held by Luton Borough Council (the Council). Subject access is a fundamental right for individuals. But it is also an opportunity for the Council to provide excellent customer service by responding to Subject Access Requests (SARs) efficiently and transparently and by maximising the quality of the personal information we hold. This Policy explains how the Council will fulfil its obligations under the Act.

## 2 Policy Statement

The Council regards the Act as an important mechanism in achieving an honest, safe and open relationship with its citizens and employees.

Subject access is most often used by individuals who want to see a copy of the information the Council holds about them. However, subject access goes further than this and an individual is entitled to be:

- Told whether any personal data is being processed;
- Given a description of the personal data, the reasons it is being processed, and whether it will be given to any other organisations or people;
- Given a copy of the personal data; and
- Given details of the source of the data (where this is available).

An individual can also request information about the reasoning behind any automated decisions taken about him or her, such as a computer-generated decision for benefit or a grant entitlement, or an assessment of performance at work.

The aim of this policy is to ensure that the Council complies with its legal obligations under the Data Protection Act 2018 and can evidence that we have done so. It also aims to ensure that we:

- Have robust processes in place for dealing with SARs, saving time and effort;
- Increase levels of trust and confidence by being open with individuals about the personal information we hold;
- Improve the transparency of our activities in line with public policy requirements.

This policy should be read in conjunction with the Subject Access Request Procedure

## 3 Scope of the Policy

This document outlines how an applicant can make a request for their personal information under the Act and how it will be processed.

This is not a legal document. It does not confer rights nor override any legal or statutory provisions which either require or prevent disclosure of personal information.

This document takes into account the key features of the Act and outlines how the Council will take steps to ensure compliance in relation to requests for personal information.

Document name: SAR Policy	Status: Final v 0.1	Page 4 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

Requests for access to the records of people who are deceased are not within scope of this Policy as the Act only applies to the data of living individuals. Such requests will be treated as requests for access to information under the Freedom of Information Act or as miscellaneous requests, depending on the nature of the data and the reason the data is being requested.

#### 4 Key Definitions

<b>Subject Access Request or SAR</b>	A request for access to data by a living person under the Act is known as a Subject Access Request or SAR. All records that contain the personal data of the subject will be made available, subject to certain exemptions.
<b>Freedom of Information Request or FOI.</b>	A request for access to data held is dealt with under the Freedom of Information Act 2000 and is known as a Freedom of Information Request or FOI. Requests for the data of deceased people may be processed under this legislation.
<b>Personal Data</b>	<p>Personal data means data which relate to a living individual who can be identified directly or indirectly from the data, particularly by reference to an identifier.</p> <p>Personal data can be factual (such as a name, address or date of birth) or it can be an opinion (such as a performance appraisal).</p>
<b>Special Category Data</b>	<p>Certain personal data, special category data, is given special protections under the Act because misuse could create more significant risks to a person's fundamental rights and freedoms. For example, by putting them at risk of unlawful discrimination. Special category data includes:</p> <ul style="list-style-type: none"> <li>• a person's racial or ethnic origin;</li> <li>• political opinions;</li> <li>• religious or similar beliefs;</li> <li>• trade union membership;</li> <li>• physical or mental health or condition or sexual life;</li> <li>• biometric or genetic data.</li> </ul>
<b>Data Controller</b>	The organisation which determines the purposes and the manner in which, any personal data is processed is known as the data controller. The Council is the data controller of all personal data used and held within each individual department.
<b>Data Processors</b>	Organisations or individuals who process personal data on behalf of the a data controller are known as data processors. Employees of data controllers are

Document name: SAR Policy	Status: Final v 0.1	Page 5 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

	excluded from this definition but it could include suppliers which handle personal data on our behalf.
<b>Data Subject</b>	A living individual who is the subject of personal data is known as the data subject. This need not be a UK national or resident. Provided that the data controller is subject to the Act, rights with regards to personal data are available to every data subject, wherever his nationality or residence.
<b>Third Party</b>	An individual who is not the subject of the data but may be connected to or affected by it is known as a third party.
<b>Relevant Professional</b>	The practitioners who supply information held on Social Services records, and various other medical and educational records. A relevant professional will consider where disclosure is likely to cause serious physical or mental harm to the applicant or any third party.

## 5 Duties of the Information Commissioners Office

The Information Commissioner's Office is the UK's independent public body set up to uphold information rights in the public interest, promoting openness by public bodies and data privacy for individuals, ruling on complaints and taking appropriate action when the law is broken.

The Information Commissioners Office is responsible for ensuring compliance with the Act and Data Protection in practice for all organisations in England, Scotland, Northern Ireland and Wales.

There are a number of tools available to the Information Commissioners Office for taking action to change the behaviour of organisations that collect, use and keep personal information. They include criminal prosecution, non-criminal enforcement and audits. The Information Commissioner also has the power to serve a monetary penalty notice on a data controller for breaches of the Act.

If organisations are found to be in breach of the Act the Information Commissioners Office may issue undertakings committing an organisation to a particular course of action in order to improve its compliance.

The Information Commissioners Office can serve enforcement notices and 'stop now' orders where there has been a breach, requiring organisations to take (or refrain from taking) specified steps in order to ensure they comply with the law.

The Information Commissioners Office conduct consensual assessments (audits) to check organisations are complying. In cases of serious breaches the Information Commissioners Office may issue a monetary penalty notice, requiring organisations to pay a fine of up to €20 million.

The Information Commissioners Office can prosecute those who commit criminal offences under the Act. This includes organisations and individuals.

## 6 Roles and Responsibilities

Adhering to the Data Protection Act 2018 is the responsibility of every officer acting for or on behalf of the council. Subject Access requests fall within the data protection statutory framework and the ability to identify and appropriately handle a request for information is considered to be part of every employee's role.

Your primary responsibility is to ensure that Subject Access Requests are in the first instance directed to the information Governance Team by emailing [feedback@luton.gov.uk](mailto:feedback@luton.gov.uk). The team will log the request on the case management system, acknowledge it and pass the case to the service for response. The Information Governance Team will also provide you with advice and assistance at each appropriate step if you need it. It is important that requests are processed as soon as they are received to assist in meeting the statutory deadline.

Specific roles and responsibilities are set out below:

<b>Chief Executive</b>	The Chief Executive holds overall responsibility for compliance with the Act. This is delegated to the Business Intelligence Manager and Subject Access Requests on a day-to-day basis are be delegated to the Complaints and Information Governance Manager.
<b>Senior Information Risk Officer (SIRO)</b>	The Councils SIRO has executive responsibility for the management of Subject Access Requests; this includes dealing with complaints from the Information Commissioners Office, general compliance issues and data subject queries and concerns
<b>Caldicott Guardian</b>	A Caldicott Guardian is a senior person responsible for protecting the confidentiality of people's health and care information and making sure it is used properly.  All NHS organisations and local authorities which provide social services must have a Caldicott Guardian.
<b>Data Protection Officer</b>	The Councils Data Protection Compliance Officer is responsible for upholding data subject's rights in relation to various aspects of the Act.
<b>Complaints and Information Governance Team</b>	Responsible for the co-ordination of Subject Access Requests; ensuring requests are responded to correctly in accordance with the statutory requirements, supporting services to obtain the relevant records and coordinate completion whilst liaising with the applicant.
<b>Employees</b>	All employees, including temporary staff, must understand their duty of care to ensure the confidentiality of all personal data. In addition they must have an understanding of this policy and where to direct individuals enquiring about

Document name: SAR Policy	Status: Final v 0.1	Page 7 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

	subject access requests.
<b>Service Managers</b>	Must ensure that SARs are responded to in a timely manner and that only data that the data subject is entitled to access are sent out. Service Managers are responsible for completing a double check of all SAR's before they are securely despatched.
<b>Information Governance Steering Group</b>	Responsible for overseeing the Council's strategic framework addressing the availability, integrity, confidentiality and security of information. The Information Governance Steering Group addresses the requirements that the law, ethics and policy place upon information management and processing.
<b>Information Governance Operational Group</b>	To raise awareness of good information governance and provide the Steering Group with the assurance that effective system controls, training and best practice mechanisms are in place across the organisation
<b>Information Governance Framework</b>	A framework which establishes good practice, promotes a culture of awareness and quality improvement in addition to ensuring that the Council complies with legislation and other mandatory standards.

## 7 How can an individual make a SAR?

A valid SAR must always be made in writing. This can be by letter, online form or via email to the Information Governance Team: [feedback@luton.gov.uk](mailto:feedback@luton.gov.uk)

It is quite common that a request for personal data can be linked with a service request, complaint, or a Freedom of Information request. For example: An individual appealing their parking ticket may request a copy of the information which led to the ticket being issued. In most cases as the request is for something very specific and minimal effort is required to supply it, the request is more than likely going to be dealt with as business as usual

**NOTE:** No matter how a request is received there is no requirement for the requester to mention either the Data Protection Act or Subject Access for it to be a valid request. In some cases the requester may even state the wrong legislation e.g. Freedom of Information Act, but the request will still be valid.

Either way, it is the responsibility of the officer dealing to appropriately recognise a request as one for personal data, i.e. information relating to the requester, and process it accordingly. Failing to recognise a SAR is not an excuse for non-response and the council will still fall foul of the Data Protection Act should a response not be provided in a prompt and appropriate manner.

## 8 Can individuals request personal information on behalf of another person?

Yes they can. The Act allows for an individual to make a request on behalf of another person. This may be a solicitor acting on behalf of the individual, a parent making a request for their child's

Document name: SAR Policy	Status: Final v 0.1	Page 8 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

information, a third party making the request for someone who has limited capacity, or indeed many other reasons. However, whilst the Act allows us in certain circumstances to process a request in this way, there are a number of considerations and checks that need to be undertaken before you process a request which is made on behalf of another person. For example, a parent is not necessarily automatically entitled to information about their children. Further information with regards to SARs made on behalf of another person can be found in the Subject Access Procedure

## **9 How long do we have to respond?**

The council has a maximum of a month (28 Calendar days) starting from the day the request and identification (if required) is received. This is a statutory requirement which must be adhered to. In exceptional circumstances an extension can be agreed with the Information Governance.

## **10 Can I charge for the request?**

No - you must provide a copy of the information free of charge.

However, you can charge a 'reasonable fee' when a request is manifestly unfounded or excessive, particularly if it is repetitive.

You may also charge a reasonable fee to comply with requests for further copies of the same information. This does not mean that you can charge for all subsequent access requests.

The fee must be based on the administrative cost of providing the information. Please seek advice from the Information Governance Team [feedback@luton.gov.uk](mailto:feedback@luton.gov.uk) before considering a charge on a SAR

## **11 What do I do if I receive a request?**

In practice, if someone wants to see a small part of their data (a council tax entry or a copy of a letter previously sent to them); you need to apply common sense. You should not require a formal SAR if the individual can prove their identity, the information is readily available there and then, and no other third party data will be unreasonably released. Such requests should be dealt with quickly, as business as usual and with little formality.

All other ("non-routine") requests for personal data which are likely to take a reasonable amount of resource must be directed to the Information Governance Team who have been trained to deal with such requests.

The Information Governance Team will determine whether the request is a valid one and will log the request on the customer feedback IT system. The request will then be sent back to the service for action. The Information Governance Team will support this process in co-ordination with the service.

Document name: SAR Policy	Status: Final v 0.1	Page 9 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

## 12 How do I locate the information requested?

Processing a subject access request can prove very difficult if you do not have adequate information systems in place. Well structured file plans and standard file naming conventions within services should be in place to assist in locating information easily.

Poor file management / knowledge of systems can not be used as a reason for being unable to respond to a SAR effectively.

Requests for information are not limited to “live” files. SARs cover all information held by the council regardless of the format it is in or where it is stored, closed, archived, and in some cases even deleted information (eg. located in outlook deleted items) should be considered as part of a request.

Unfortunately, there is no outright exemption or time threshold with regards to the amount of time it may take officers to locate SAR information. Further information with regards to resource intensive or complex SARs can be found in the Subject Access Procedure.

## 13 Can I provide all information found relating to the data subject?

The simple answer is no,

The Council must consider whether it is possible to comply with the SAR without revealing information that relates to and identifies a third party individual or any other exempt information.

Examples of third party information that cannot be shared routinely without specialist consideration are:

- Social services files which may contain information about multiple children including siblings and estranged parents
- Social services information such as case conference files notes which contain confidential information about multiple unrelated children or adults
- Files containing legally privileged information
- Files containing advice from relevant professionals such as doctors, police or probation services
- Employee files containing information identifying managers or colleagues who have contributed to (or are discussed in) that file.

Special consideration should be given to sharing this type of information. More information can be found in the Subject Access Procedure or from the Information Governance Team [feedback@luton.gov.uk](mailto:feedback@luton.gov.uk)

## 14 What is a double check?

Before a SAR is sent out to the data subject officers are required to carryout a double check. This is done to ensure that all third party data has been removed appropriately and that any documents have been redacted appropriately.

Third party data sent out in error to the wrong person constitutes a data breach under the Data Protection Act 2018 and can have very serious consequences for the council (see section 5 above).

Document name: SAR Policy	Status: Final v 0.1	Page 10 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

Service Managers are responsible for completing a double check of the information to be provided to the data subject. For further guidance on the double check please refer to the Subject Access Request Procedure.

**NOTE:** Occasionally services will outsource the redaction of SARs to a third party provider such as a solicitor or barrister. A double check of the work completed must be carried out by the service manager before any documents are sent out to the data subject. This is to ensure that the work is completed to the standards expected by the Council.

## **15 How do I respond to a SAR?**

Once all of the information has been collated (duplicates and third party information has been removed or redacted and a double check has been carried out) the information will be provided either in paper copy, electronically or during a meeting with the Data Subject and sent securely.

The council is required to provide the copies in a format requested by the data subject. For further information on how to respond securely to a SAR please refer to the Subject Access Request Procedure.

## **16 Complaints**

The Council will provide a right of complaint to all applicants in the event they are dissatisfied with the handling of their request. If an applicant is unhappy with the service they have received they should firstly contact to the Complaints and Information Governance team [feedback@luton.gov.uk](mailto:feedback@luton.gov.uk)

If the applicant is dissatisfied with the content of the information they have received they should also make a complaint in writing to the Complaints and Information Governance team. If an applicant remains dissatisfied with the outcome of their Sate 1 complaint, they may submit an appeal to the Council's Data Protection Officer.

The Data Protection Officer will make an independent assessment of the case. If the applicant remains dissatisfied they may ask the Information Commissioners Office to carry out an independent investigation.

### **16.1 Appealing a decision to refuse disclosure of Information**

If the Council refuses to disclose information in response to a subject access request, the Council offers the applicant an opportunity to appeal the initial decision. If the applicant believes that an error has been made in the response to their SAR they are able to appeal the Councils decision by seeking an internal review.

The Complaints and Information Governance Manager arranges all internal reviews on behalf of the Council

Once an appeal has been received the complainant will receive an acknowledgment receipt and the request and response to it will be reconsidered.

The applicant will be notified of the outcomes of the internal review as soon as possible. All internal reviews should be concluded within 20 working days.

Document name: SAR Policy	Status: Final v 0.1	Page 11 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:

If an applicant's appeal is successful they will receive the information they requested as soon as possible. If the appeal is unsuccessful the Council will provide a detailed explanation of the findings and supply further information on how to take the matter further.

## 16.2 Complaining to the Information Commissioners Office

If an applicant is not satisfied with the outcomes of the Councils decisions they have the right to submit a complaint to the Information Commissioners Office. The Information Commissioners Office will make an initial assessment of the case before carrying out an investigation.

The Information Commissioners Office has written guidance notes for applicants on how to complain to the Information Commissioners Office and published it on their website, [www.ico.gov.uk](http://www.ico.gov.uk)

## 19 Review of the Policy

This policy will be reviewed as a minimum every 2 years to ensure that the Council meets statutory requirements and any codes of practice made under the Act.

Document name: SAR Policy	Status: Final v 0.1	Page 12 of 12
Issue Date: March 2018	Review Date: February 2020	Revision Date:
