
We, as partner organisations in Bedfordshire and Luton, will work together to put in place the principles of the national Concordat to improve the system of care and support so that people in crisis because of a mental health condition are kept safe. We will help them to find the help they need – whatever the circumstances – from whichever of our services they turn to first.

We will work together to prevent crises happening whenever possible, through intervening at an early stage.

We will make sure we meet the needs of vulnerable people in urgent situations, getting the right care at the right time from the right people to make sure of the best outcomes.

We will do our very best to make sure that all relevant public services, contractors and independent sector partners support people with a mental health problem to help them recover. Everybody who signs this declaration will work towards developing ways of sharing information to help front line staff provide better responses to people in crisis.

We are responsible for delivering this commitment in Bedfordshire and Luton by putting in place, reviewing and regularly updating an action plan/action plans.

This declaration supports ‘parity of esteem’ (see the glossary) between physical and mental health care in the following ways:

- Through everyone agreeing a shared ‘care pathway’ to safely support, assess and manage anyone who asks any of our services in Bedfordshire and Luton for help in a crisis. This will result in the best outcomes for people with suspected serious mental illness, provide advice and support for their carers, and make sure that services work together safely and effectively.

- Through agencies working together to improve individuals’ experience (professionals, people who use crisis care services, and carers) and reduce the likelihood of harm to the health and wellbeing of patients, carers and professionals.

- By making sure there is a safe and effective service with clear and agreed policies and procedures in place for people in crisis, and that organisations can access the service and refer people to it in the same way as they would for physical health and social care services.

- By all organisations who sign this declaration working together and accepting our responsibilities to reduce the likelihood of future harm to staff, carers, patients and service users or the wider community and to support people’s recovery and wellbeing.

<td><strong>Concordat</strong></td>
<td>A document published by the Government. The Concordat is a shared, agreed statement, signed by senior representatives from all the organisations involved. It covers what needs to happen when people in mental-health crisis need help. It contains a set of agreements made between national organisations, each of which has a formal responsibility of some kind towards people who need help. It also contains an action plan agreed between the organisations who have signed the Concordat. <tr>
<td><strong>Parity of esteem</strong></td>
<td>Parity of esteem is when mental health is valued equally with physical health. If people become mentally unwell, the services they use will assess and treat mental health disorders or conditions on a par with physical illnesses.
