Personal Health Budgets (PHB)

All adults eligible and receiving continuing healthcare (CHC) NHS funding or children receiving continuing care (CCC) NHS funding from Luton Clinical Commissioning Group are now entitled to ask to receive this funding in the form of a Personal Health Budget (PHB) from 1st April 2014 and the right to have a PHB considered from 1st October 2014.

PHBs work in a similar way to the personal budgets many people already use to manage and pay their own personal care.

Further information and examples of how the PHB’s have been used in pilots can be found on the NHS websites:

For more information - including some real-life examples of the way in which patients buy their care and support through their PHBs - see the PHB section of the

NHS Choices website.  www.nhs/personalhealthbudgets

Or have a look at the webpages on this at the NHS England www.england.nhs.uk/healthbudgets

And to discuss PHBs with the CHC team here at the CCG:
