Last updated: September 2021

Overview

We received **£1,045** [Pothole and Challenge Fund](#) funding for the 2020 to 2021 financial year, of which £600,000 was allocated to pothole works.

This was additional in-year funding that was used to complement the existing maintenance programme by enabling additional areas to be treated and to contribute to the reduction in the deterioration of the highway and to reduce further occurrences of potholes.

All sections were machine surfaced at depth of 100mm to remove the fatigued surface and replaced with more modern SMA giving an expected surface life of between 15 to 20 years.

Treated roads

This funding allowed for six roads to be treated, and for potholes to be filled on a further 89 roads. The roads that were treated were:

- Ash Road: 60m² DBM
- Castle Street Roundabout: 207.75m² HRA
- Dunstable Road: DBM patching and HRA patching
- Farringdon Road: 2005m² SMA
- North Street: 2748m² SMA
- Telford Way Roundabout: 120m² HRA

The list below shows the roads that were treated for potholes.

Abbots Wood Road

Abingdon Road
