

Black women are up to twice as likely to be diagnosed with breast cancer at a later stage.

But early detection saves lives.

Breast screening can help catch cancer early when it's easier to treat.

Many women put their loved ones first, but taking a few minutes for your breast screening appointment can protect your future and help you stay healthy for the people who rely on you.

NHS Luton

Breast Screening

Beds and Herts Breast Screening Service

We invite all women to have their first breast screening between the ages of 50 and 53. Then you'll be invited every 3 years until you turn 71. This is because most breast cancers develop in women over the age of 50.

An invitation letter is sent to you

Contact us to change your appointment or rebook a missed one

Please attend your Breast Screening appointment and check on the website - bhbss.nhs.uk/where-we-screen

Results will be sent to your home within 2 to 3 weeks

Be breast aware between appointments – get to know what your breasts normally look and feel like, so it's easier to spot any changes

Please attend your breast screening appointment when you are invited, it could save your life!

If you live in Luton and you think you have missed your appointment call 01582 497599 or email bscreen@ldh.nhs.uk
